drainage and infrastructure

**OBJECTION:** The Town Council do not support the application on the following grounds:-

1. Narrowing of the road access on Totterdown Lane would have an adverse impact on pedestrian and highway safety.
2. There are numerous ecological matters in relation to wildlife preservation, flooding and drainage that require a longer period of consideration than has been set.
3. The site is adjacent to Oldmixon Copse a site of nature conservation and where development of this size would adversely affect the visual amenity.
4. A development of this size would join up and damage separate identities of two settlements.
5. The development is outside the 'development boundary' and therefore contrary to the Local Plan.

We note communications in respect of a Section 106 Agreement regarding this application and consider that should planning permission be granted the proposal would have a substantial impact on local facilities and services particularly in relation to dog bin, grit bin and play area provision.
